ADP Workforce Now<sup>®</sup>

## A better way to connect.

### ADP Mobile Solutions

Today's employees are working differently — no longer tied to a desk, an office, or in front of a computer all day long.

If you're managing your changing workforce the same old way, you're missing out on a tremendous opportunity to connect with your employees, enhance productivity, attract and retain talent, and drive significant organizational growth.

Imagine getting all of this from a single mobile app. With today's powerful mobile devices reaching the enterprise level — you can.

**According to ADP<sup>®</sup> and VDC research, the total number of mobile workers globally exceeded 1 billion in 2010 and will grow by more than 10% over the next three to five years.<sup>1</sup>**

HR. Payroll. Benefits.

## Stay connected. Anytime. Anywhere.

By 2013, mobile phones will overtake PCs as the most common Web access device worldwide.<sup>2</sup> Clearly mobile is the key to keeping your on-the-go workforce connected. In fact, respondents to a recent survey<sup>3</sup> expressed interest in an easy way to access information such as pay statements.

It's all within reach of even the most mobile workforce, with the new ADP Mobile Solutions app — keeping your employees engaged, informed and productive wherever they are.

Best of all, the ADP Mobile Solutions app boosts productivity in two ways: empowering employees with self-service access, and freeing your HR staff from many routine inquiries.

## Connect your employees to the information & tools they need to succeed.

- View pay statements
- Tap to contact colleagues
- Track time & attendance
- Distribute company news & events

## Fast. Flexible. Secure.

With the ADP Mobile Solutions app, you'll get complete integration of HR, Payroll and Time & Attendance solutions — and the productivity and profitability gains that come from an engaged, focused and empowered workforce.

Get ready — mobile is about to become your biggest competitive advantage!

Discover how organizations like yours are providing mobile access to key HR functions — and enjoying improved productivity and worker satisfaction along the way.
