

GoToMeeting with HDFaces Integrated High-Definition Group Video Conferencing

Key benefits

- See meeting attendees in HD
- Enjoy easy-to-use, intuitive video controls
- Establish and maintain quality relationships
- Share up to 6 video feeds in session

Citrix® GoToMeeting® is the easiest, fastest and most secure solution for conducting and attending small-group online meetings. GoToMeeting with HDFaces™ offers a simple way to bring high-definition video conferencing to online meetings in any location.

The HDFaces feature was built on the idea that everyone should have easy access to high-definition video conferencing, without the need for expensive hardware or video systems. Anyone with an Internet connection and a webcam can use GoToMeeting and get high-definition group video conferencing at no additional cost.

Meet, sell and collaborate in high definition

- **Sales Demos:** Have face-to-face interactions with remote customers and prospects. Build stronger relationships and connect personally to close more business.
- **Follow-up Meetings:** Remove miscommunication in project meetings or updates with live interaction.
- **Collaboration:** Stay connected with remote team members by including video conferencing in your daily meetings, project updates and one-to-one chats.

GoToMeeting with HDFaces includes:

No additional cost: HDFaces is included with all GoToMeeting subscriptions at no additional cost.

Combined video and screen sharing: View up to 6 video streams and a shared document, presentation or application on the same screen.

Multistream HD™ technology: Provides up to 6 streams at a resolution of 640p x 480p each, for a total maximum resolution of 1920p x 960p.

One-click video conferencing: Start sharing video with a single click.

Bandwidth optimization: Automatically adjusts to the available bandwidth and hardware resources of each participant to provide the best possible user experience.

Resizable viewer and layouts: Video layout can be adapted to virtually any PC or Mac monitor and projection configuration.

No proprietary hardware configuration: Most HD-capable webcams will support HDFaces.

Organizer video controls: Mute/unmute, dismiss or request video from attendees directly from their video feeds.

Secure 128-bit AES encryption: Video streams receive the same industry-standard SSL and U.S. government standard protection as the rest of the online meeting.

Mac and PC support: Mac and PC users alike can share video over HDFaces.

“We use HDFaces to connect our team together — it’s much more interactive seeing someone than hearing them on the phone. For our staff, it helps them overcome the feeling of being isolated and faceless and allows them to have more meaningful conversations with their colleagues.”

David Buckmaster
