RightsLink for Open Access

Copyright Clearance Center

Trusted and innovative author payments solution

New business models in publishing have triggered new complexities for everyone.

The demands are great. Publishers want efficiency and flexibility; authors require a smooth and effortless process; funders require proof of compliance with their OA policies.

RightsLink® streamlines the entire author fee transaction by seamlessly integrating with editorial and production workflows.

Article processing charges (APCs), page charges, color charges, and reprints — at every step, RightsLink ensures that critical research gets published as quickly as possible.

End-to-end Solution

From article submission to post-publication permissions, RightsLink handles the job:

- Article Processing Charges
- Page and color charges
- Billing and collection services
- Author reprints / offprints
- "OA aware" permissions services at the article level
- Dedicated customer service to authors
- Multi-currency invoicing
