

Damovo Aquila, our cloud aggregation platform, lowers the barriers for customers who want to move to the cloud whilst retaining the freedom of choice and control.

Alexander Janssens
Head of Group Cloud Propositions

Build your bridge into the digital future

In today's fast moving digital world it is important for you to have the agility and flexibility to drive innovation and create competitive advantage in order to stay ahead.

Damovo Aquila, our customer-centric cloud aggregation platform, offers you a **customisable**, **secure** and **reliable** portfolio that optimizes your Total Cost of Ownership (TCO), reduces risk and builds your bridge into the digital future.

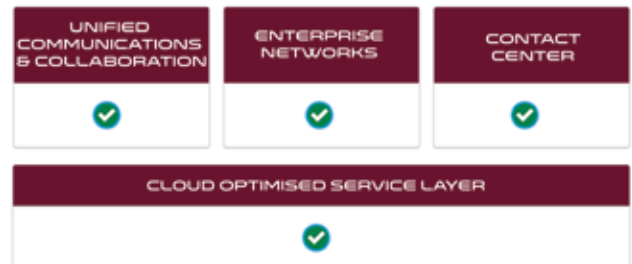

- ✓ **Best-of-Breed Technology**
Damovo is highly certified by the leading technology vendors (Avaya, Cisco, HPE, Microsoft, Mitel)
- ✓ **Service Excellence**
Guaranteed 30 minutes response SLAs for high priority issues
- ✓ **Flexibility**
Whether you favour a public, private or hybrid cloud approach, self or fully managed – enjoy the freedom to choose with Damovo Aquila

Get the best of both worlds

Damovo Aquila offers you an extensive cloud portfolio which can be deployed as a customised, tailored solution, depending on your enterprise needs.

Aquila aggregates a large variety of best-of-breed cloud solutions in Unified Communications and Collaboration, Enterprise Networking and Contact Centres.

You will retain the freedom of choice and control you need whilst at the same time benefiting from the significant advantages that the cloud delivers.

Damovo Aquila:

- Tailor your individual solution from our modular cloud portfolio
- Enjoy the freedom to choose your architecture: public, private or hybrid cloud
- Manage it yourself or let our experienced team take care of this for you
- Secure your peace of mind with our cloud optimised service layer – guaranteeing an exceptional 30-minute response to high priority calls
- Obtain valuable insights into your critical business applications via our real-time and historical monitoring service
- Protect your investment by utilizing existing assets
