Origination. It starts here.

One.

Ellie Mae[®] and DataTrac[®] are now one.

The combined knowledge, experience and resources of two trusted performers united to form one world-class leader with a broad range of innovative industry solutions and proven results.

Your streamlined, reliable mortgage management system needs are firmly in place.

Almost...

It begins with origination.

Encompass Originator™ delivers a fluid process right from initiation, and is designed specifically to connect with DataTrac to give you a comprehensive solution from origination to close.

One click moves you from Encompass Originator to DataTrac.

No importing and exporting files. Just better workflow, better oversight, higher quality loans—all driven by Encompass Originator.

Encompass Originator helps you create a comprehensive loan delivery system. Working with DataTrac, it supports your company from marketing to prospective borrowers, through loan

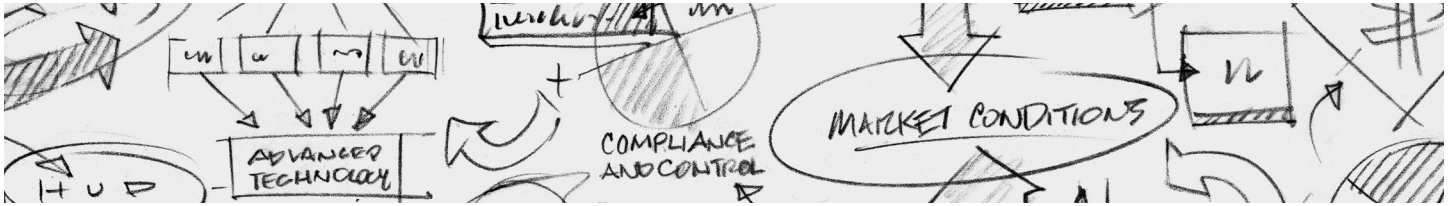

origination, and all the way through closing and beyond.

The beginning to your end-to-endless solution.

Encompass Originator takes the front end of the loan process and smoothly integrates it with DataTrac. Better workflow, better task and compliance management:

- Smooth, simple interface – just click a button and shift the loan to your back-office and into underwriting and secondary.
- No browsing to import files system-to-system – the process is fluid, streamlined and simple.
- Rules-based workflow – eliminates errors and maximizes efficiency.
- Robust CRM capabilities – manage client contacts, strengthen relationship marketing, and improve loyalty.
- Secure eFolder – save time and money with paper-free document signing and exchange.
- Collaborative vendor integrations – streamline your process without leaving the solution.
- Personalized, customizable pipeline – organize and efficiently initiate tasks, and keep detailed information right at your fingertips.

No importing and exporting files.
Just better workflow, better oversight,
higher quality loans.
