Introduction

Cloud computing and mobile technology is growing by the day as organizations take advantage of the speed, agility and flexibility they provide. But as cloud and digital applications grow, so does the complexity of integrating data between the cloud, on-premise applications, social sources and more. A next-generation integration solution can mean the difference between being overwhelmed by IT complexity or gaining competitive advantage.

Solution Summary

MuleSoft provides the most widely used integration platform for connecting SaaS and enterprise applications in the cloud and on-premise. As a MuleSoft partner, Pactera provides professional integration services around MuleSoft's enterprise product portfolio. Our senior consultants can provide clients with the strategy and technology needed to attain seamless interactions with mission-critical IT systems.

Pactera's data integration solutions and strategies enable organizations in all industries to integrate and harness insights through analytics. We can assist with a wide range of projects including assessment of current infrastructure to complex implementations and integrations. Our vast industry expertise allows us to address the unique set of challenges faced by each business and industry.

MuleSoft's integration platform combined with Pactera's technology and industry expertise address the growing need for holistic integration. By partnering with Pactera, businesses can spend less time worrying about communication between databases and applications, and more time focusing on core business processes.

Pactera MuleSoft Services:

- Integration Strategy and Consulting
- Technology Enablement
- Cloud Strategy and Architecture Services
- MuleSoft Development and Training Services
- Data Migration Services

Why Pactera?

- Vast expertise across industry verticals to address unique needs of the business
- Experience with integration endpoints including CRM, marketing, social and ERP platforms
- Cost-effectiveness through "right shore" delivery model
- 24,000 highly trained and dedicated technical staff
- Experience in Enterprise Solutions: Oracle, SAP, Salesforce, JD Edwards, Siebel, Teradata and IBM Netezza
- Industry leading security and quality certifications
- Flexible engagement models

Pactera provides a valuable strategic partnership that can take on the burden of intensive IT operations so your company can optimize resources and focus on strategic IT options. We enable organizations to reduce costs while gaining access to IT expertise and 24/7 support.
