

ICIS Propylene Methodology Consultation

Response 2

General Questions

Q1 - I think that the aim is fairly well achieved.

Q2 - No, I'm not aware of possible alternatives

Q3 - I'm using a lot these prices in my business. I'm always using the Raffia reference, even if I'm working in the Bopp

Q4 - No

Questions specific to Propylene Market

Q5 - I agree on setting a limit of 100,000 tonnes/year minimum

Q6 - Yes, I think it would be better to have multiple derivatives involved in the settlement

Q7 - I'd stick to the "2+2", but I agree on the opportunity to avoid the publication of the initial settlement.

Q8 - No

Q9 - Not applicable

Q10 - No idea
