## CALL FOR PRESENTATIONS

In 2012, PerkinElmer is celebrating 75 years of making life better by delivering innovative solutions that help solve critical problems in

many areas, including analytical sciences.

We could think of no better way to celebrate than to invite other pioneers in the industry to share in the wonder of scientific discovery.

We're embarking on a 15-city, North American tour that we are aptly calling: INspiring INnovation.

The tour will feature cutting-edge applications and technologies, opportunities to network with your peers and one-on-one discussions with PerkinElmer scientists. But that's not all.

We know that the best Innovators are the scientists in the field...working day-by-day to develop new methods and applications that affect every area of human life. Whether your work involves consumer products, forensic analysis, chemical manufacturing, water testing or any of the hundreds of laboratory testing jobs out there, we want to hear from you!

PerkinElmer is inviting all scientific pioneers to submit presentations for consideration for our 2012 tour. If selected, you'll be invited to attend an event in your area to present your work to attendees. It's your chance to share your ideas and experiences with others in the industry and to be recognized as an innovative leader in your field.

Look on the back of this flyer for submission instructions and deadlines. We appreciate your participation and look forward to seeing you!

For the Better

## The details:

Each presentation will be approx. 25 minutes, followed by a brief Q&A period. We Invite you to bring a poster of your work, if applicable. There will be opportunities during breaks to answer questions from other attendees.

If selected, you will receive complimentary admittance to the event, and a special gift from PerkinElmer. You will also be recognized on the IN Tour webpage for attendees to view your poster and to ask questions about your work and on The Gateway, PerkinElmer's worldwide online community.

Potential presenters should complete the online submission form along with a brief abstract (200 words or less) describing your work. A PerkinElmer representative will contact you if we have any questions. Accepted presenters will be notified via email. Please see schedule below for submission deadlines and acceptance date notifications.
