## EXCLUSIVE WEBINAR SPONSORSHIP OPPORTUNITY

### The U.S. NGL Outlook: Production Poised to Reach Record Levels Tuesday, February 28, 2012

Over the past five years, huge supplies of natural gas have been unlocked throughout the U.S. and Canada. This has been christened the “shale gas revolution”.

Raise your profile in the natural gas industry as we discuss:

- What is driving the surge in production of natural gas liquids
- Why plays that are rich in liquids are providing superior returns to those of dry gas
- The 14% increase in the average liquid content of U.S. gas from 1.38 today to 1.56 by 2016
- U.S. NGL volumes surging more than 40% to 950+ Mb/d over the next five years

Sponsoring this webinar will help you:

- Leverage your thought-leadership
- Generate brand awareness
- Reach top natural gas and oil professionals
- Capture qualified leads

Reach the following designations and industries:

Analysts, Business Development, Brokers, Consultants, Consumers, Economists, Engineers, Finance, Forecasters, Government, Investors, Legal/Policy/Compliance, Marketers, Procurement, Purchasing, Operations, Risk Managers, Senior Energy Executives, Strategists, Traders, etc.

Sponsoring a Platts webinar will help you generate qualified leads and establish or reinforce your company's brand.
