SIMPLE MIGRATION

With the import/export wizard, you can easily import your existing data into the Sage Fixed Assets - Depreciation database, integrate with your General Ledger solution, and be up and running in no time at all.

COMPREHENSIVE REPORTING

Sage Fixed Assets - Depreciation provides an all-inclusive solution for recording asset detail data, including a notes field with a time and date stamp for recording transactions involving the asset, and the ability to attach photos and documents. Extensive, flexible reporting and snapshot summaries give you instant command over your fixed assets.

Flexible Configurations

With the wealth of features offered including customizable data fields, SmartLists that provide predefined drop-down lists for fast and accurate data entry, a Group Manager that helps you organize and view only the assets you're interested in, and "Asset Templates" that promote data integrity and accelerate the process of entering new assets, you can customize your Sage Fixed Assets solution to work the way you want to.

Secure Access

Security profiles can be defined differently for each individual user who has access to the system, ensuring that only those who are allowed to change the data are able to.
