

Sage Fixed Assets

Sage Fixed Assets - Tracking

Efficiently create and track multiple physical inventories of assets and enjoy complete control over your entire asset inventory at every step with Sage Fixed Assets - Tracking. This solution allows you to track your fixed asset inventory thoroughly, helping to eliminate lost or stolen assets and reduce insurance and tax overpayments. With automated inventory functionality and built-in reconciliation capabilities, Sage Fixed Assets - Tracking offers you a complete range of inventory tracking tools so you can effectively achieve tighter control over your fixed assets.

With an easy-to-use wizard that walks you through every step of reconciling your inventory, Sage Fixed Assets - Tracking makes automating your fixed asset inventory tracking simple. Sage Fixed Assets - Tracking allows you to perform physical inventories efficiently using state-of-the-art Windows® Mobile bar-code readers. You can conduct multiple inventories concurrently at various sites and reconcile data at one central location. And, since Sage Fixed Assets - Tracking comes with over 40 fully customizable fields, you can control data entry with notes and images to describe each asset record. Better still, Sage Fixed Assets - Tracking integrates seamlessly with Sage Fixed Assets - Depreciation, allowing physical inventory data to be reconciled easily with existing asset data.

From developing innovative products to providing certified customer support, Sage is dedicated to surpassing expectations in all aspects of our business. For more information about Sage Fixed Assets - Tracking, please call us toll free at 800-368-2405, or visit our Web site at www.SageFixedAssets.com. Sage customer service representatives are standing by to provide you with top-notch products and service.

● Sage Fixed Assets - Tracking combines solid fixed asset inventory capabilities with an easy-to-use interface and readily integrates with the complete line of Sage Fixed Assets solutions.

QUALITY SUPPORT

Sage Business Care members benefit from an unmatched level of customer support—visit our online knowledgebase, or call the Sage Fixed Assets Customer Support Team and our friendly knowledgeable experts are ready to help. Sage Business Care members can also receive software updates, access multimedia tutorials, and take advantage of exclusive discounts on new products.

COMPREHENSIVE TRACKING

Check-In/Check-Out feature with activity history enables monitoring of mobile assets, and available user fields allow for data entry to be standardized. Photos and documents for each asset can be stored including class, acquisition date, General Ledger asset account, location, and much more, eliminating duplication in asset tracking and facilitating clean audits.

FLEXIBLE CONFIGURATIONS

With the wealth of features offered, including configurable data fields, and Asset Templates that promote data integrity and accelerate the process of entering new assets, you can customize your Sage Fixed Assets solution to work the way you want to.

Secure Access

Security profiles can be defined differently for each individual user who has access to the system, ensuring that only those individuals allowed to change the data are able to.

Streamlined Inventory

Asset labels and bar-code readers complete the inventory solution: Optional components, durable, preprinted bar-code labels made of polyester, foil, or aluminum, and Windows Mobile bar-code readers make tracking assets quick, easy, and accurate.

Powerful Reports

The Sage Fixed Assets - Tracking family provides the necessary reports for you to track your assets and obtain crucial information about individual assets or groups of assets. You can quickly and accurately report on:

- Fixed asset listing
- Asset detail
- Collected data from bar-code readers
- Checked out assets
- Overdue assets
- Transferred assets
- Inventory exceptions found
- Fixed asset history
- Duplicate asset tag notification

Sage Fixed Assets - Tracking has been designed to meet the unique requirements and number of assets of your organization:

Sage Fixed Assets - Tracking

- Stand-alone or multiple network user seats
- Designed for entities with fewer assets

Sage Fixed Assets - Premier Tracking

- Faster processing times with Microsoft® SQL Server® infrastructures
- Designed with client/server architecture and support for multiple databases
- Easily accounts for hundreds of thousands of fixed assets
