 Sage Fixed Assets Canadian Edition - Tracking combines solid fixed asset inventory capabilities with an easy-to-use interface and readily integrates with the complete line of Sage solutions

BENEFITS:

Check-In/Check-Out feature with activity history enables monitoring of mobile assets, and available user fields allow for data entry to be standardized. Photos and documents for each asset can be stored including class, acquisition date, GL asset account, location, and much more, eliminating duplication in asset tracking and facilitating clean audits.

With the wealth of features offered including configurable data fields, and a asset templates that promote data integrity and accelerate the process of entering new assets, you can customize your Sage Fixed Assets solution to work the way you want to.

Asset labels and barcode readers complete the inventory solution: Optional components, durable, preprinted barcode labels made of polyester, foil, or aluminum, and barcode readers make tracking assets quick, easy, and accurate.

Security profiles can be defined differently for each individual user who has access to the system, ensuring that only those individuals allowed to change the data are able to.

Sage Business Care members benefit from an unmatched level of customer support–visit our online knowledgebase or call the Sage Customer Support Team, and our friendly, knowledgeable experts are ready to help. Business Care members can also receive software updates, access multimedia tutorials, and take advantage of exclusive discounts on new products.

Sage Fixed Assets | Sage Fixed Assets Canadian Edition - Tracking
