

Sage ERP X3 6.5 Release Highlights

Improve Productivity. Simplified Installation. New Connected Services.

1. **Save time and increase efficiencies** by using Electronic Document Management to capture, distribute, archive and retrieve documents
2. **Simplify installation, management and upgrades** with incorporated Add-Ons such as the ability to set overage or underage tolerances to catch discrepancies between Purchase Orders, Receipt of Goods, and Receipt of Invoices
3. **Increase customer loyalty and be more competitive** leveraging Accounts Payable and Accounts Receivable early payment terms discounts and grace periods
4. **Use item notes to automatically display meaningful information**, inform of seasonal promos, special instructions, and add links to reference documents, or websites
5. **Reap tax benefits** by more efficiently applying the optimum depreciation method and tracking the movement of assets
6. **Improve productivity and save on postal costs** using the new autofill and autocorrect Postal Code enhancements
7. **Make informed decisions** with comprehensive reporting utilizing the new Sage Intelligence Reporting financial report distribution and reporting tree capabilities
8. **Streamline your tax reporting** process using sales tax reporting and 1099 processing
9. **Accelerate growth and stay connected** with Advanced Sage CRM enhancements that improve information flow between the front and back offices
10. **Efficiently and cost effectively manage the shipping process** and rate shop with an optional service that streamlines shipping and reduces costs
