

# SunPower End of Year Solar Rebate

## 1 Which SunPower® modules qualify for the promotion?

This promotion is valid on SunPower Equinox® systems with A-Series, SPR-E20-327-WHT-E-AC and SPR-X21-350-BLK-E-AC panels only.

## 2 Do leased systems qualify for this rebate?

No, leased systems do not qualify for this promotion.

## 3 Who can participate?

The promotion is available for qualified SunPower Direct, Installing Dealers and Non-Installing Dealers who are currently part of SunPower's loyalty and lead handling programs.

## 4 Who is paying for the rebate?

In the spirit of our partnership, SunPower will be co-funding the rebate with the opted in dealer. SunPower will contribute 50% and the dealer will contribute 50%.

## 5 Can I use Dealer Program Funds to pay for my dealer co-fund portion of the rebate?

Yes, Residential dealers can utilize Dealer Program Funds if dealers have available funds and the account is in good standing. SunPower will issue a debit memo to residential dealers and dealers can submit the debit memo for DPF reimbursement.

## 6 Can this offer be combined with other SunPower offers?

No. This offer cannot be combined with other SunPower offers.

## 7 How is the offer redeemed?

Participating Dealers will be provided a rebate form to fill out on behalf of the customer and send in with appropriate attachments.

## 8 Can I apply the offer to a contract recently signed?

No, the offer is only valid for contracts signed by the homeowner October 11, 2019 – December 31, 2019.

## 9 Is an opt-in agreement required to participate?

No. Qualified SunPower Installing Dealers and Non-Installing Dealers who are already opted in to the SunPower loyalty and lead handling programs will automatically be part of the promotion. To opt-out of the promotion and lead handling agreement, please contact SunPower by October 17, 2019.

## 10 Does the module type need to be indicated on the customer invoice?

Yes, the dealer will need to provide the dealer invoice and proof of payment with the rebate form. The dealer invoice must include the name of the participating dealer, system size and specific SunPower module so we can verify that the system was sold by a participating dealer with qualifying modules. In addition, the following must be included with the rebate form prior to submitting it:

- Purchase Order Number for the order date
- Invoice Copy for the closure date and proof of delivery

## 11 Does the customer need to be in the SunPower portal?

Yes, in order for SunPower to verify the customer's rebate submission, the customer information must be in the SunPower Dealer portal by midnight in your local timezone on December 31, 2019.

## 12 Can I use my existing inventory?

No, all purchases must be new shipments from SunPower and not part of dealer's inventory. All new purchases must be shipped after December 31, 2019 and installed on January 1, 2020 or after. All systems must be installed by midnight in your local timezone on March 15, 2020.
