

VOCOLLECT'S

SRX2 WIRELESS HEADSET

Changing the Way People Work
in the Distribution Center

Cutting-Edge Improvements. Bottom-Line Benefits.

The SRX2 wireless headset from Vocollect sets an entirely new standard for how workers work in the distribution center. The SRX2 wireless headset greatly enhances the worker experience by providing the most comfortable and ergonomic wireless headset option available for the distribution center worker. When combined with Vocollect's ground breaking SoundSense™ voice recognition technology, the SRX2 wireless headset offers unmatched accuracy. The innovative, shareable component design enables shared use of electronics across multiple shifts, reducing both the up-front cost and the ongoing cost of ownership. The Advanced Speech Recognition Protocol™ ensures zero loss of speech data, thus providing the highest levels of accuracy and worker performance.

Setting a Higher Standard in Wireless Headsets

Superior Speech Recognition with SoundSense™ Technology

The SRX2 wireless headset provides an embedded multi-microphone array to reduce unwanted word and sound insertions by more than 50% compared to other headsets used in the distribution center. It uses high fidelity acoustic sampling for higher audio clarity.

Innovative Shareable Component Design

The ground-breaking shareable component design of the SRX2 wireless headset provides management and workers the ultimate wireless headset solution without compromise. For management, the SRX2 offers their workforce an industry leading solution with the greatest operating performance capabilities while offering the business a reduced investment option. For the worker, the SRX2 wireless headset provides the most comfortable and ergonomic wireless headset option available (including our 280° spin design).

A Wireless Headset Solution for All Environments

The SRX2 wireless headset provides you with the ultimate in operating environment flexibility. It is designed and certified to operate in dry, cool, freezer, high noise and fast paced piece picking environments. It also provides you with great battery performance. You can expect charges to last in dry environments up to 20 hours and up to 10 hours in the challenging freezer environment (operational down to -22°F).

Vocollect SRX2 Wireless Headset

The Leading Wireless Headset for the Distribution Center & Warehouse Worker

"The Vocollect SRX2 wireless headset is an exciting headset solution option that operates across our various working environments. The extended battery life means we don't have to change batteries during a shift, including our freezer operations."

- Operations Manager

1. Advanced Speech Recognition Protocol ensures zero loss of speech and audio information, unlike consumer Bluetooth® headsets, in order to provide the best voice interaction experience, even in highly congested environments.

4. Compact batteries that last two full shifts in dry facilities and up to 10 hours in a freezer environment with intelligent battery management that predicts battery life.

2. Padded headband with 280° spin for multiple levels of user adjustment helps improve overall user comfort.

5. Flexible multi-microphone boom for left and right ear configurations for enhanced user comfort.

3. Self-evident user controls for quick training and enhanced usability.

6. Hygiene and health-centric design with personalized headbands and microphone caps.

Padded headband with 280 ° spin for multiple levels of user adjustment	✓	
Self-evident user controls for quick training and usability	✓	
Simple user access and easy to change battery design	✓	
Flexible multi-microphone boom for left and right ear configurations	✓	
Personal hygiene and health-centric boom microphone	✓	
Certified in multiple operating environments including high-noise and freezer areas (down to -22°F)	✓	
Predictive Battery Replacement indication and Intelligent Battery Management for improved understanding of battery life	✓	

SRX2 Technical Specifications

Low operating temperature:	-22°F (-30°C)
Low storage temperature:	-40°F (-40°C)
High operating temperature:	122°F (50°C)
High storage temperature:	158°F (70°C)
Water & dust resistance:	IP-54
Humidity:	5%-95% condensing
Microphone:	Sealed, noise canceling
Drop resistance:	24 drops from 6 ft. (1.83 m) at low and high operating temperatures
Weight with Battery:	6.84 oz. (194 g) with stability strap
Battery:	High performance battery. Typically provides 10-20 hours of service.
Bluetooth version:	v2.1 + EDR

“Our workers really like the comfort features of the SRX2 wireless headset. The ability to operate without a wired headset is a real safety improvement for the worker. The SRX2 has so many personalization features that enable each worker to make their own adjustments that it’s like we purchased custom headsets for each worker.”

- Distribution Center Manager

In a continuing effort to improve our products, Vocollect, a business unit of Intermec reserves the right to change specifications and features without prior notice.

Improved Accuracy. Increased Productivity. Real Business Results.

In the complex supply chain industry, accuracy and productivity are of paramount importance. The proven track record of voice in driving quantifiable performance improvements has made it a natural fit for process reengineering efforts to solve key business challenges. Vocollect, a business unit of Intermec, is the number one provider of end-to-end voice solutions for mobile workers worldwide, helping customers achieve a higher level of business performance. Together with our partners, we enable nearly 500,000 workers at almost 2,000 companies around the globe to distribute US\$4.5 billion in goods every day. Contact Vocollect today to learn how we can help you transform your operational and workforce performance.
