

COLLABORATIVE CLASSROOM SUITE

Title 1

Title 1 is the largest federal K-12 program. This formula grant program provides districts with resources to improve the academic achievement of children in high-poverty schools, ensuring that poor and minority children have the same opportunities as their peers to achieve academic success.

- Prepare students to be proficient in achieving state academic standards and assessments.
- Use instructional strategies that are scientifically research-based or have evidence of effectiveness.
- Provide additional academic support and learning opportunities to low-achieving students so they may meet state standards.

The Collaborative Classroom Suite addresses the requirements for Title 1 funding through:

- CPS™ and ExamView® as a way to differentiate instruction as a result of valuable formative assessment data provided during activities.
- CPS™, ExamView®, Mobi™, and Workspace™ as ways to differentiate and modify instruction to meet the diverse needs of low-performing students.
- ExamView® as content correlated to state standards to help improve student achievement on state assessments.
