

## COLLABORATIVE CLASSROOM SUITE 21<sup>st</sup> Century Community Learning Centers (CCLC)

The 21<sup>st</sup> Century Community Learning Centers (CCLC) program provides funding for academic enrichment opportunities during non-school hours (often after-school initiatives) dedicated to improving student achievement and enrichment. Federal funds are allocated to the state level and awarded competitively to school districts or community-based programs (non-profit organizations, faith-based groups, etc.) to develop after-school learning centers.

### **The Collaborative Classroom Suite addresses the requirements for 21<sup>st</sup> Century Community Learning Centers through:**

- CPS™ – engaging and motivating software makes sure every student is participating and educators can easily track results.
- ExamView® – correlated supplemental test banks to reinforce basic skills aligned to standards.
- Mobi™/Workspace™ – students can simultaneously develop software skills with hands-on collaboration, a trait not often found in a traditional classroom.
