

COLLABORATIVE CLASSROOM SUITE

School Improvement Grants (SIG)

School Improvement Grants are part of the Title 1 funding initiative. SIG funds are distributed to State Agencies as formula grants to assist schools that have been identified for improvement, corrective action, and restructuring (i.e., lowest 5% of persistently lowest achieving schools).

The Collaborative Classroom Suite addresses the requirements for School Improvement Grants through:

- CPS™ - a way to engage students in lessons via hardware while tracking their academic progress by the lowest common denominator and aggregating up to the district level via software.
- ExamView® - test questions based on state standards to provide practice and familiarity with state assessments.
- Mobi™/Workspace™ - hardware and software that increases engagement of all students (can acknowledge low-performing). Also the Mobi™ KWIK™ screen helps identify struggling students in real-time so educators can address key concepts in-the-moment that are not being grasped.
