Enhanced Asset Management for Deltek Vision<sup>®</sup>

# FMIS Enhanced Asset Management for Deltek Vision®

Comprehensive Enterprise Asset Management fully integrated with Deltek Vision®

## WHY ENHANCED ASSET MANAGEMENT?

FMIS Enhanced Asset Management for Vision provides comprehensive and integrated Enterprise Asset Management for Deltek Vision® customers requiring more than the Vision Asset Management Module.

Enhanced Asset Management for Vision is ideally suited to equipment intensive companies or those with complex asset accounting requirements. The FMIS suite includes Asset Tracking, Equipment Maintenance, Field Services and Fixed Asset Accounting.

## WHAT IS ENHANCED PURCHASING?

FMIS Asset Management allows users to track, maintain and account for assets and equipment whether they are in the office, warehouse or out in the field.

Location tracking to multiple levels includes integrated barcode tagging. Easily record information such as warranties, service history, user or project allocation and the status of the item.

Equipment Maintenance (CMMS) allows users to schedule and carry out preventative and reactive maintenance with associated work orders for all jobs.

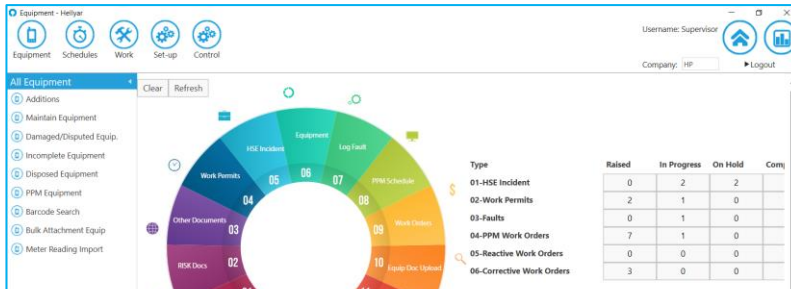

Enhanced Fixed Asset Management from FMIS integrates with both Vision and other FMIS modules to provide complete visibility and control over every stage of the asset life cycle.

## KEY BENEFITS

- Manage assets across multiple sites, companies and countries
- Tailored views for Finance, Operations, IT and Management
- Integrated Asset Register and Inventory allows real-time asset management from anywhere
- Synchronise all operational and accounting costs automatically with Deltek® Vision
- Allocate any asset expenses to specific projects and cost centres

## FIXED ASSET ACCOUNTING

- Ensure compliance with IFRS, Sarbanes-Oxley, Local GAAP and all relevant accounting standards
- Manage multiple companies, currencies and books
- Handle depreciation, transfers, impairments, revaluations and disposals
- Calculate and forecast depreciation for large volumes quickly
- Extensive reporting and search facilities
- Generate all general ledger postings quickly and easily

Maintain equipment and ensure HSE compliance for all equipment

Calculate depreciation with automated journal postings and reporting to any level

## EQUIPMENT MAINTENANCE

- Reduce maintenance costs and equipment downtime
- Set automated reminders for all maintenance tasks
- Ensure a full history of all equipment maintenance work
- Increase maintenance productivity with work orders for all jobs
- Improve Health and Safety (HSE) compliance
- Clear and simple reporting for all assets and equipment

## ASSET TRACKING

- Get real-time visibility of your asset register
- Attach images, documents and create user defined fields
- Conduct physical audits accurately and efficiently
- Track all asset events from purchase to disposal
- Integrated Barcoding and RFID tracking

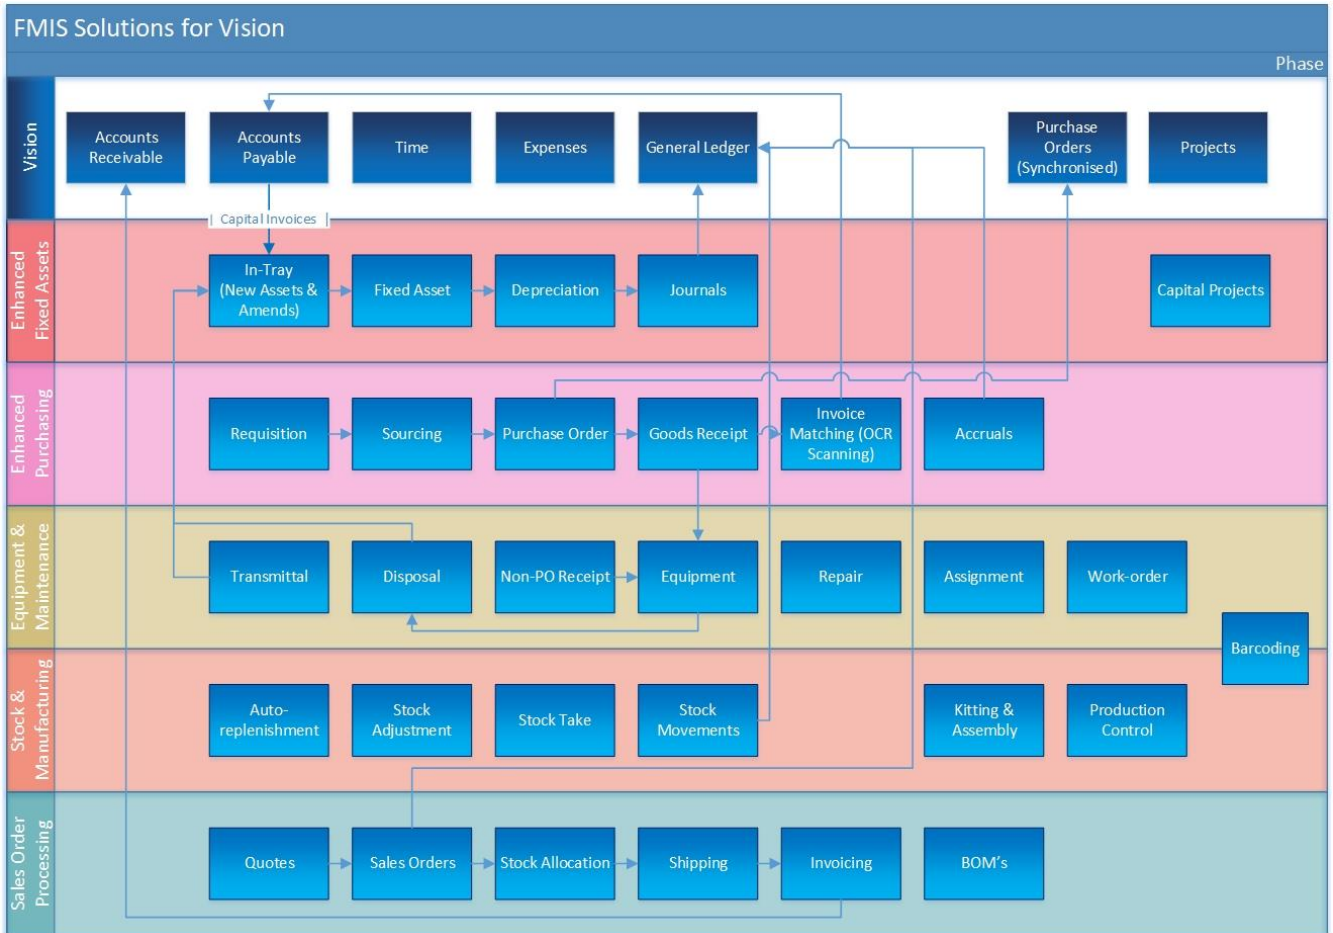

## INTEGRATION WITH VISION

Integration with Deltek Vision® minimises data duplication between systems, improves accuracy and allows for real-time reporting on projects and expenditure at any level.

All assets can be effectively managed within FMIS and synchronised with Vision to provide complete visibility at any level from any location.

**MORE SOLUTIONS FOR DELTEK VISION®**

FMIS Enhanced Asset Management is part of a wider Enhanced Purchasing and Production Control suite available to Deltek Vision Users.

*FMIS customer service is excellent. Our version was initially adapted for our need to track customer-owned materials that our company holds. As our business developed and diversified, FMIS worked with us to improve speed and functionality for managing large quantities of items and to expand invoicing capabilities. Users in our organization are very pleased by the creativity and responsiveness of the FMIS team in helping them meet new challenges.*

Mike Kiess, **Veterans Corps of America**

*Exponent has been using Vision since 2007. We found that though the majority of the company was not purchasing intense, there were several groups that were, and each had their own process. It was time to unify and standardise the process. In FMIS, Exponent found a system that provided the flexibility we needed to accommodate our approval matrixes while still seamlessly interacting and taking advantage of the capabilities of Vision.*

Sue Lawless, **Exponent**

*Love that this software does all of my inventory management. Also love that when I need something special, FMIS works with us until it is delivered.*

Jayne Robnett, **GBA Systems Integrators, LLC**
