Deltek

Deltek ConceptShare for Jira

## Easy-to-Use Online Proofing for Agencies Using Jira

Get clear, actionable feedback and faster approvals on your creative work right from your Jira projects with Deltek ConceptShare's easy to use online proofing integration.

Getting Feedback on Creative Work Couldn't Be Easier

An inefficient approvals process can eat up a big chunk of production time, putting deadlines, costs, and revenue at risk. Built specifically for agency and creative teams, Deltek ConceptShare streamlines the review and approval process so you can avoid rework, reduce costs and deliver more content faster.

Upload Creative Work Right in Jira

Simply upload images, videos, banner ads, and 60+ other types of content into a review in your Jira project and get feedback and approvals quickly.

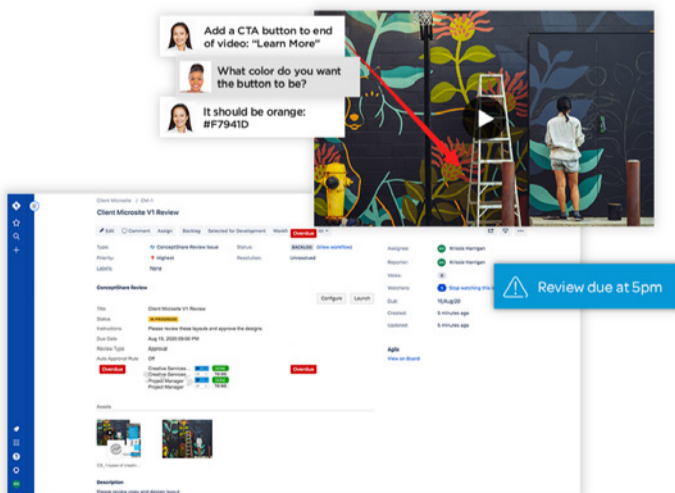

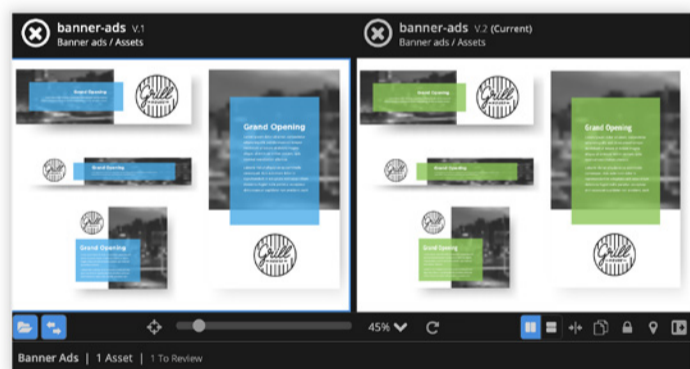

Invite & Collaborate with Reviewers

Reviewers simply click a link in an email to access a proof, then markups and collaboration happens directly in the asset – no Jira access or training required.

Prioritize, Track, and Manage Changes

Reviewers can see their changes in action with side-by-side, down to the pixel version comparison, eliminating unnecessary re-work.

Keep Reviewers on Track & Production Moving

Project Managers quickly see the status of all content reviews right in Jira – no hassles and no project delays.

Two Steps to Better Agency Review & Approvals

1. Start a free 30 day trial of ConceptShare – it's easy and just takes a minute to sign-up
2. Install the Proofing & Approvals add-on in the Jira Marketplace
