

Focus on innovation, not data entry

Introhive's AI-powered platform automates growth and unlocks the power of relationships. So you can spend less time managing databases and more time building—and selling—the next big thing.

Winning advantages for every team in tech

CEOs and Business Unit Directors

Differentiate your business in the marketplace. Get a global view of your accounts. Automate revenue-generating activities.

Chief Marketing Officers

Turn your CRM into a valuable insights engine. Reach the right audience with smart, relationship-centric marketing lists for targeted campaigns.

B2B Sales Leaders

Enable today's modern, digital seller to target the right decision makers faster and easier. Enjoy quick, painless implementation for instant benefits.

Chief Innovation, Technology and Resource Officers

Break free from unreliable manual data entry with intelligent automation.

Grow faster, smarter

AI-powered enterprise relationship management

Artificial intelligence has disrupted virtually every business process across every industry. And now it's simplifying how tech companies themselves build the business relationships that matter.

Automate™

Eliminate administrative busywork and watch sales productivity and CRM adoption rise with automatic activity, contact sync and post-meeting wrap-up emails

Cleanse™

AI-powered data enrichment for a 100% reliable customer relationship management

Insights™

Build business with valuable relationship info—where and when you need it

Analytics™

Premium relationship data reports and dashboards to help you spot opportunities fast
