# Complete Benefits Automation for Employers

## Transforming the Landscape of Benefits Delivery

### Key Challenges Facing Organizations

- Growing benefits portfolios, and increasingly complex regulations makes benefits management overwhelming and time-intensive
- Outdated processes can put organizations at risk for billing errors, premium leakages, costly delays, compliance penalties, and other exposures
- Companies relying on manual or paper-based processes or outdated and disconnected technologies waste valuable time and resources dealing with one-off requests, asynchronous systems, and data corrections

### Is EverythingBenefits Right For You?

- **The Leading Provider** of next-generation AI-powered benefits technology that automates and improves every facet of benefits experience for thousands of employers
- **Single Source of Truth Platform** delivers holistic and complete benefits administration experience for enterprises across the entire public and private industry spectrum
- **Seamless Integrations** with over 200 leading Payroll and HCM providers and 600+ benefits carriers and retirement plan providers
- **Powerful Analytics** ensure transparency and control of data as well as insights into critical KPIs that help drive better decision making
- **Uncovers Hidden Expenses** and stop premium overpayments to ensure every dollar is accounted for
- **Eliminates Costly Errors** and overlooked adjustments with proactive technology that listens to life events and reports changes in coverage as they occur
