Is your workforce stuck on the digital assembly line?

Free them with Robotic Process Automation (RPA)

About
Alirrium

Alirrium is an authorized reseller of UiPath, the worlds leading provider of Robotic Processing Automation software.

What
We Do

We assess, plan, design, document, implement, test and support your complete RPA journey.

People and robots are working together to drive efficiencies, productivity, speed, creativity and innovation.

Visit Alirrium on the Deltek. Partner Marketplace › to learn more.

RPA isn't just about streamlining your existing processes, it's also about unleashing the innovation, creativity and passion of your people.

RPA is a software technology that performs transactional activities in IT applications the same way a human user would.

65% of todays primary school children will work in completely new jobs that don't even exist today.

52% of global productivity growth is made possible by automation.

Automatable RPA processes

Open and read emails and attachments

Quickly and accurately open forms

Securely log into apps

Collect and move structured and unstructured data from any source

Follow if/then decisions via visual process mapping and automation framework

Read and write databases

Accounting

• Automating complex journal entries

• Performing and documenting account reconciliations

• Calculating and applying allocations

• Maintaining fixed-asset accounts

Financial Planning & Analysis

• Building standard management reports

• Consolidating and validating budget and forecast inputs

• Gathering and cleaning data for analysts

Payroll

• Flagging time-sheet errors and omissions

• Auditing reported hours against schedule

• Calculating deductions

• Harmonizing data across multiple time-keeping systems

Accounts Payable

• Entering non-EDI invoices

• Performing 2- and/or 3-way invoice matches

• Processing expense-approval requests

• Completing audits (e.g. duplicate supplier payments)

Accounts Receivable

• Generate and validating invoices

• Applying cash to outstanding balances

• Analyzing and processing disputes

• Creating reports (e.g. accounts receivable aging, credit holds)

Human Resources

• Preparing external-reporting templates

• Conducting transaction audits of high-risk areas

• Preparing wire-transfer requests
