

National ESIGN Day

What is this all about? The Electronic Signatures in Global and National Commerce Act. It is the United States federal law passed by the U.S. Congress that facilitates the use of electronic records and electronic signatures. Although every state has at least one law pertaining to electronic signatures, it is the federal law that lays out the guidelines for interstate commerce.

Legislation June 30, 2000

President Bill Clinton signed the ESIGN Act electronically. With the passage of this bill, electronic signatures and on-line contracts gained legal acceptance.

Birth of DocuSign®

Tom Gonser founded DocuSign in 2003. The philosophy behind DocuSign was to create a digital platform with safe, secure, and legally-binding signatures that did not require a paper and pen.

National ESIGN Day June 30, 2010

On the 10th Anniversary of the passage of the ESIGN Act, two separate milestones were achieved signaling the emergence of DocuSign as the industry leader.

On the West

DocuSign hosted the ESIGN Summit with former president Bill Clinton, the original signer of the ESIGN Act.

On the East

In Washington DC, both the U.S. House and Senate passed concurrent resolutions declaring June 30th the official day of National ESIGN Day.

Anniversary June 30, 2015

DocuSign celebrates the 15th anniversary of the passage of the ESIGN Act and the 5th anniversary of National ESIGN Day. Even more industries are joining the digital revolution.

TODAY

Legal eSignatures in the US and beyond have paved the way for organizations of every size and industry to make every decision, approval, workflow and signature 100% digital. Since the start of DocuSign, signers have noticed:
