Valued at \$328.00

NEW

Fluke 377 FC and 378 FC Clamp Meters with FieldSense™

Complete 3-phase measurements

The NEW Fluke 377 FC and 378 FC Clamp Meters are the first handheld clamp meters with FieldSense™ technology where voltage and current can be measured simultaneously with the clamp jaw, enhancing safety and productivity.

Improve the workflow efficiency by making 3 phase measurements 50% faster! Simply clamp the jaw over each of the three phase conductors and get a full set of phase-to-phase voltage and current measurements on the clamp.

PQ indicator senses power quality issues related to voltage, current and power factor automatically, making it easy to determine if it's an upstream or downstream problem. (Fluke 378 FC Only)

Fluke Electrical Testers

NEW

Fluke T6 Electrical Testers

See voltage and current simultaneously

Measure with confidence with the Fluke T6-1000 PRO Electrical Tester – the newest addition to the popular Fluke T6 Electrical Tester family. Take more measurements in less time while using safer work practices. The T6-1000 PRO now comes included with the Fluke H-T6 Holster and heavy-duty crocodile clip as a complete package.

Visual continuity™ the screen turns green when you have continuity between the test in addition to the beeper (T6-1000 PRO only)

FieldSense™ technology for AC voltage, current and frequency measurements without making electrical contact to live voltage

Fluke Front Line Infrared Cameras

NEW

New and Improved Infrared Cameras Optimal resolution, easy to use

Detect issues before they become problems with Fluke thermal cameras.

- Let thermal inspection be part of your everyday tasks with our entry level PTi120 and TiS20+ cameras
- Take clear, in-focus images with both manual and fixed focus capabilities in our new TiS55+/TiS75+
- Dew-point calculation in the TiS75+ helps you detect moisture/water in the air for facility inspections

How to redeem your FREE gift:

1. Purchase a selected Fluke test tool in this promotion between 17th May and 30th June 2021
2. Redeem online at www.fluke.co/EOFY21 before COB 14th July 2021

Sponsored by Fluke Australia Pty Ltd. Tool prices listed within this flyer are in Australian Dollars (AUD) excluding GST. Prices listed are Fluke Australia's recommended trade price and are correct at time of print. Final pricing is at the discretion of the participating authorised Fluke Distributor or Wholesaler. Price drop for the Fluke 110 and Fluke PTi120 are only available within the promotional period from 17th May 2021 to 30th June 2021 and will be reinstated from 1st July 2021 or until stocks last. Terms and conditions: Gift with purchase is available for all purchases of a "Qualifying Fluke Purchase" made from an authorised participating Fluke Distributor or Wholesaler within Australia, between 17th May 2021 and 30th June 2021, or until stocks last. Redemption requests must be submitted within 14 days of purchase. In order to redeem your gift, the redemption form must be completed in its entirety with a copy of your receipt/invoice that may only be submitted once per redemption. Offers cannot be combined with any other discounts, promotions or other special offers. Allow 6-8 weeks for delivery. Please note there may be delays pertaining to the ongoing COVID-19 pandemic which may extend this estimated delivery timeframe. The offers in this promotion are only available to Australian Residents. Fluke Australia reserves the rights to modify the contents of this promotion at any time for any reason without notice.

Insulated Hand Tools Starter Kit - IKST7

Fluke Acoustic Imaging

Fluke ii900 Industrial Acoustic Imager ROI at a glance

Quickly and accurately locate air, gas and vacuum leaks in compressed air systems; even in loud environments. Specifically designed for noisy production facilities the new SoundSight™ technology provides a straightforward, intuitive maintenance solution.

- Detects a 2.5 cm³/sec leak at 7 bar from up to 10 metres
- Operation range up to >50 metres
- Frequency band of 2 kHz to 52 khz
- Long battery life: 6 hours
