Solutions for environmental and food contaminant testing

November 6, 2025 (Thursday)

Be part of an engaging hybrid experience this November! Discover innovative technologies and workflows tackling today's toughest challenges in detecting contaminants such as **PFAS** and **pesticides** across a wide range of matrices, including food and wastewater.

Agenda

	IST	SGT/CST	JST/KST	AEDT	NZDT	
Session 1	11:30	14:00	15:00	17:00	19:00	Welcome Message Innovation That Delivers: Transforming Science into Impact
	11:40	14:10	15:10	17:10	19:10	Overcoming Analytical Challenges in PFAS Monitoring in Marine Food Sources
	12:05	14:35	15:35	17:35	19:35	What's Hidden in Your Spices? A Deep Dive into Pesticide Residue Testing for Difficult Matrices
	12:25	14:55	15:55	17:55	19:55	<i>Break</i>
Session 2	13:20	15:50	16:50	18:50	20:50	Lab Immersion Experience
	13:40	16:10	17:10	19:10	21:10	Global Perspectives on PFAS: A Unified End-to-End Workflow for Diverse Needs
	14:05	16:35	17:35	19:35	21:35	Ensuring Safety Across Borders: Comprehensive Workflows for Diverse Regional Regulations
	14:30	17:00	18:00	20:00	22:00	Ask the Experts: Roundtable Discussion
	15:00	17:30	18:30	20:30	22:30	Closing Message
	15:05	17:35	18:35	20:35	22:35	End of Event

The event will be broadcasted from our Customer Solution/Experience Centers in India and Paris.

Please email analyze.apj@thermofisher.com for any questions about this event or regarding your registration.
