

GamesIndustry.biz payroll client summary report

Cendex® conducted a salary survey for the UK games industry to explore the earnings of certain roles across the sector, at different levels of seniority.

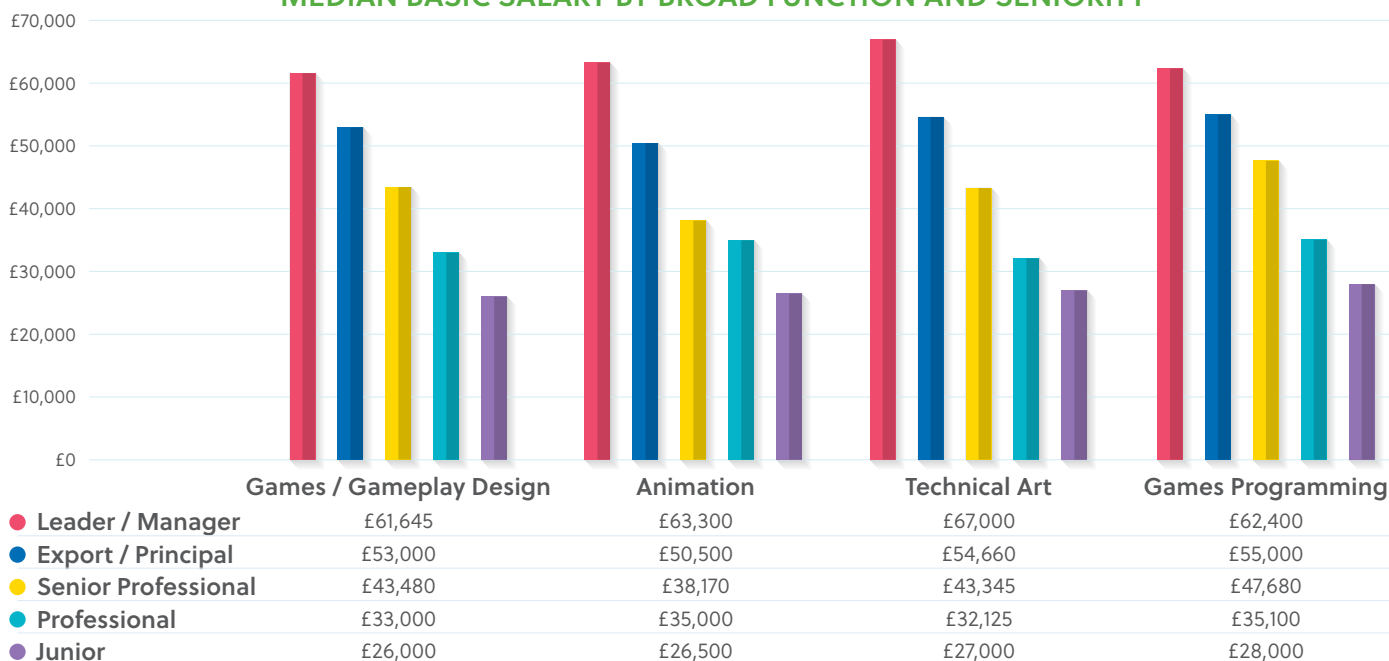

In total 25 studios responded between June and September 2023, providing market pay data on over 3,000 employees across the sector.

Data was collected for roles across the following functional areas:

- ◆ Games Production
- ◆ Games art
- ◆ Technical art
- ◆ Games programming
- ◆ Games / Gameplay design
- ◆ Animation
- ◆ Games audio
- ◆ Games QA

This report summarises some of the initial, key findings from the first Cendex® salary survey for GamesIndustry.biz clients. The data collected through this research gives much needed robust benchmark data to support fair and transparent decisions about reward.
