

What can you see?

Uncover scanning that overcomes industry pressures

Can your facility keep up with the e-commerce boom?

86% of warehouses will increase volume of items shipped¹ **46%** need to support faster delivery to end customers¹

Focus on fulfilling on-demand expectations

Zebra scanners boast 20/20 vision for rapid, accurate fulfillment

See hard to read data quickly in challenging barcodes during critical manufacturing workflows

Be failproof with scanners that are drop-proof, dust-proof and waterproof

Add productivity, capture up to 20 barcodes at once with Multi-Code Data Formatting

Don't let customers get-up-and-go empty-handed

51% leave due to long lines² **77%** of consumers believe mobile coupons are more convenient than printing out paper coupons³

Happy customers are repeat customers

Zebra scanners simplify scanning and speed up checkouts with swipe-and-go performance

Ensure damaged barcodes are spotted and purged with ScanSpeed Analytics

Rack up customer loyalty by scanning 2D barcodes on mobile devices

Keep lines moving by automatically switching from handheld to hands-free scanning

Stop paying the high cost of inaccuracy

64% of healthcare clinicians say a patient is misidentified in a typical healthcare facility very frequently or all the time⁴ **33%** of all denied claims result from inaccurate patient identification⁵

Keep a sharp eye on patient care

Zebra scanners lead the charge in reducing human error and enhancing patient care by preventing manual workarounds

Scan tiny vials, curved bottles and IV bags in the blink of an eye

Disinfect scanners with ease when needed, eliminating expensive manual workarounds

Foresee and prevent downtime with battery health visibility and remote hardware management
